

MAKE NO PROGRESS IN NEGOTIATIONS

Obregon Awaits Word
from Carranza as to
Course to Pursue

BANDITS CROSS BORDER

Ride Up and Down Rio Grande
for Several Miles Without Do-
ing Any Apparent Damage

PREPARE TO HANDLE MILITIA

EL PASO, Texas, May 10.—Negotiations over American troop dispositions in Mexico made no progress today. General Obregon awaited word from General Carranza as to the course he is now to pursue and when instructions did not come, a conference which had been proposed for this morning was postponed until tomorrow.

May Ask Partial Withdrawal.
Falling in their efforts to have a definite date of withdrawal set, it was reported tonight that the Mexican government, may next try to have part of the American troops taken out at once, leaving the remainder to co-operate with the forces of the de facto government in the pursuit of Villa groups. The report, which could not be confirmed, had it that the Mexicans believe the size of General Pershing's army is out of all proportions to its mission—the extermination of a few hundred bandits—and that a much smaller force would answer the purpose. A partial withdrawal it is argued, would have a good political influence in Mexico.

In the absence of new proposals, the situation as it now stands, is as follows:

Generals Scott and Funston are unalterably opposed to any agreement which sets a date for American withdrawal from Mexico. However, the American conferees are listening to all proposals the Mexican minister of war may make while waiting for him to realize that the intentions of the American government are immovable. In the meantime General Obregon's proposal for a joint troop patrol of the border is not given serious consideration, although it was reported to Washington.

Bandits Cross Rio Grande.
Marathon, Texas, May 10.—Approximately forty bandits crossed to the American side of the Rio Grande above Eagle Pass today and rode up and down the river for several miles later crossing to the Mexican side without doing any apparent damage, according to a report here. A detachment of the 19th infantry was sent to the scene according to information received here tonight.

Major Langhorne and his command are well over the river into Mexico. At noon today Major Langhorne had reached Boquillas on the American side where he halted for a short rest before continuing his ride.

Colonel Sibley who left here this morning for Boquillas to command the expedition refused to say whether or not Major Langhorne had instructions to go across the line.

Y. M. Vasquez, Mexican consul at Del Rio, Texas, who went to Boquillas at the instance of his government to investigate the raid returned tonight. He says he has established beyond doubt that the Boquillas raiders were Villistas. Vasquez said that the three bandits captured and turned over to United States army officials were mourning bands for Villa, whom they believe to be dead and that the prisoners admitted that they were formerly part of a detachment belonging to Canuto Reyes.

Prepare for Handling Militia.
San Antonio, Texas, May 10.—Preparations for handling one of the largest militia camps ever held in the United States since the Spanish-American war, were completed today by army officers of the Southern department at Fort Sam Houston. Troops of the Texas National Guard got underway, in special trains from many points tonight and the first of the organization will begin arriving in the morning.

As fast as companies reach San Antonio they will be sent to the maneuver field, where the mobilization camp has been laid out. All organizations will carry their own tentage and will pitch camp immediately upon arrival. A separate camp has been laid out for the eleven companies of coast artillery ordered to Fort Sam Houston from Gulf and Atlantic seaboard points.

Headquarters announced tonight the first one of the coast artillery companies to arrive would be moved in the morning to strengthen the base at Boquillas. Others will be held in camp for distribution along the border.

FIGHT IN SENATE ON RIVER AND HARBOR APPROPRIATION BILL

WASHINGTON, May 10.—The fight in the senate on the annual river and harbor appropriation bill developed aspects today threatening a repetition of the filibuster which forced abandonment of last year's measure and substitution of a lump appropriation for distribution by the war department.

Senator Kenyon of Iowa, who with Senator Burton, led the attack a year ago, continued throughout all of today's session the speech he began against the bill yesterday and announced when a recess was taken that he only had begun. Tomorrow, he said, he would discuss the measure item by item. Senator Sherman of Illinois, another Republican, gave notice that he would take up the fight when the Iowa senator had finished.

A lump appropriation of \$20,000,000, the same as that finally agreed on last year, is proposed by Senator Kenyon and Senator Sherman as a substitute for the \$43,000,000 measure passed by the house. Senator Kenyon characterized the system of annual appropriation bills as a "dribbling" method and declared most of the items were drawn with the idea of providing political bait rather than with the honest purpose of improving the country's waterways. His statement drew an objection from Senator Ransdell of Louisiana in charge of the bill, who insisted that a detailed examination of the measure would disprove it.

THREE SURVIVORS WITH 5 BODIES OF SHIPMATES DRIFT ASHORE

SAN LUIS OBISPO, Cal., May 10.—The Steamer Roanoke which left San Francisco at midnight May 8th, for Valparaiso, foundered at sea about 100 miles south of San Francisco, according to the story told by three survivors, who, in a lifeboat, with the dead bodies of five of their shipmates, drifted ashore here today.

The survivors, weak and partly delirious, were unable to give their names or any information of the rest of the crew beyond the fact that four other boats had been launched when the steamer sank.

Carried No Passengers.
San Francisco, Cal., May 10.—The Roanoke, which was owned here by C. P. Doe, was under charter to the California South Sea Navigation company and left this port May 8th, for Valparaiso with cargo of general merchandise. She carried no passengers.

RESOLUTION CAUSES HOT DISCUSSION IN CONVENTION

DECATUR, Ill., May 10.—A resolution introduced by T. E. Mammala of Milmine, suggesting legislation which would place the grain elevators under control of the state utilities commission precipitated a hot discussion today at the closing session of the Illinois Grain Dealers' association. Secretary Hitchcock announced that the legislature was already prepared and that a new bill would be unnecessary but not until G. H. Hubbard, who was presiding at the round table discussion had bitterly assailed the proposed movement "do you want men who know practically nothing about the business to tell you upon what margin you shall buy your grain, do you want them to tell you how much business you can do, what kind of scales you can use and what kind of books you can keep?"

"If you put your business in the hands of a commission you will be no different than the country manager who works for a salary of \$50 or \$60 a month."

WOULD ENJOIN COMMISSIONERS FROM DISPOSING OF CARCASSES

CHICAGO, May 10.—Suit to enjoin the livestock commissioners of Illinois from disposing of any carcasses of any animals belonging to the National Livestock Commission company was filed in the circuit court here today by the company. It is charged in the bill that the defendants maintain a system of inspection at the stock yards for the purposes of ascertaining whether cattle have contagious diseases and in cases of doubt as to whether an animal is infected it is slaughtered and a post mortem examination held. If the carcass is found fit for food, it is disposed of by the commissioners without regard to the owners wishes in regard to disposal. The bill alleges the commissioners have made improper charges and have deducted the same from the proceeds of the sale of the carcasses.

NEW VICE PRESIDENT FOR ADAMS EXPRESS CO.

Chicago, May 10.—Grant D. Curtis was today appointed vice president and general manager of the Adams Express company. It was announced today. He had been general manager of the western department.

Mr. Curtis entered the service of the company as an agent at Martinsville, Ill., in 1877.

STREET ELECTED PRESIDENT
Chicago, May 10.—Dr. Richard H. Street of Chicago was elected president of the Illinois Homeopathic Medical association at its sixty-first annual meeting held here today. The sixty-second meeting of the association will be held in this city in May, 1917.

FRENCH TAKE PART OF GERMAN TRENCH

PUT TO NOUGHT TEUTON ATTACK NEAR HILL 287

Russ Repulsed in Assault on Germans—Constantinople Chronicles Victory for Turks Over Muscovites in Northern Asia Minor.

On the western front in France, notably in the region of Verdun, which for weeks has been the theater of the most sanguinary conflicts of the world war, comparative calm prevails. The French, however, have been able to capture portions of a German trench on the west slopes of Le Mort Homme and to put at naught a German attack near Hill No. 287, between the Wood of Alan-court and Le Mort Homme, launched in an endeavor to advance further the German line toward Verdun.

From none of the other fronts has any indication come of material changes in the positions of the belligerents.

Late reports show the Russians have been repulsed in an attack on the Germans south of Garbunovka, suffering heavy casualties. On the Austro-Italian front the usual bombardments and isolated infantry attacks are still in progress.

Constantinople chronicles victories for the Turks against the Russians in northern Asia Minor and northwest of Mush, and the defeat of the Russians with heavy losses and the capture of some prisoners near Mount Bathli.

The recent attack by the Turkish Cruiser Breslau against Russian Black Sea ports is declared by Constantinople to have been made as a reprisal against the Russian fleet, "which bombards open towns and villages on the Anatolian coast."

The bombardment by the Teutonic allies of points on the Macedonian-Grevel sector of the Macedonian front continues, according to unofficial advice. The Germans these reports say after having thrown numerous shells into the town of Mayada, occupied the place, but were compelled to evacuate under a French counter-attack. Numerous 17-inch guns are being placed along this front by the Germans.

A royal commission has been appointed to investigate the Irish rebellion which now seemingly has been entirely put down. Premier Asquith has informed the house of commons that there seems to be necessity for further extreme measures against the rebels.

Debate on the Irish situation has been postponed in the house until Thursday pending which no further executions of leaders in the revolt will take place.

Baron Wimeborn, lord lieutenant of Ireland has resigned. As the only way in which their aspirations for self-government possibly can be realized the Irish parliamentary party manifesto has called upon the people of Ireland to support the constitutional movement and oppose the "insane course of Irish policy."

Germany, in a note to the United States has admitted that a German submarine torpedoed the French cross-channel steamer Sussex. The submarine commander is declared not to have acted according to instructions, and it is stated that he has been "appropriately punished."

ILLINOIS NATIONAL GUARD TO SEND THREE TO WEST POINT

SPRINGFIELD, Ill., May 10.—The war department has instructed Adjutant General Dickson to select three members of the Illinois National Guards who are unmarried and between the ages of 19 and 22 to participate in a competitive examination with guardsmen from other states. The twenty-two men making the best showing are to be admitted to West Point Military academy July 10.

The candidates must have served by July 10, 1916, one year as an enlisted man in the national guard to be eligible.

Governor Dunne has directed me to notify all organization commanders to select candidates who will participate in a preliminary and qualifying examination," said Gen. Dickson today. "The three men selected will be sent to Fort Sheridan for their entrance examination."

DUNNE REFUSES REQUISITION FOR RETURN OF J. J. CORKILL

Springfield, Ill., May 10.—A requisition for the return of J. J. Corkill of Chicago to this state for Wisconsin on a charge of securing money under false pretenses was today denied by Governor Dunne. The requisition was asked under the claim that Corkill was individually liable for alleged losses to Melvin A. Hoyt who complained that he had been sold valueless stock in the Townbridge and Niver company of Milwaukee of which Corkill was manager.

A requisition for Corkill on complaint of Julius Simon involving purported sale of bonds of the United Irrigation and Rice Milling company was also denied.

DECATUR, Ill.—One elevator, two residences and five business buildings at Ivesdale, in Champaign county, were destroyed by fire. The loss was \$30,000. The blaze started in the Morgan and Campfield barn and spread to the same firm's elevator, which was a total loss.

SPECIAL SESSION ADJOURNS BECAUSE OF LACK OF QUORUM

SPRINGFIELD, Ill., May 10.—Unable to muster a quorum the first special session of the Forty-ninth general assembly adjourned sine die here today. A few complimentary resolutions were adopted and Representative Thomas Curran introduced a bill to repeal the present primary law. No other business was transacted.

Adjournment was taken after Governor Dunne had delivered a brief address to both houses in joint session in the house. Governor Dunne thanked the legislators for their co-operation during the two special sessions.

State officers and legislators after adjourning hurried to a local moving picture theatre and saw Lieutenant Governor Barratt O'Hara in a moving picture which had for its plot the trials and tribulations of working girl victims of white slaves.

CONFEREES FAIL TO REACH AGREEMENT ON ARMY BILL

WASHINGTON, May 10.—Conferees on the army reorganization bill in an all day session today failed to reach final agreement on disputed phrases of the measures but both senate and house members said tonight there was a general feeling that they would get together after several more days of discussion. All were agreed that it was useless to talk further for a standing army of 225,000 men or to plead any longer for the senate's proposed federal volunteer reserve army. Much of the day was spent in discussing the probable agreement on the regular army and the general understanding seemed to be that the peace strength would be fixed at approximately 180,000 men.

IOWA MINING SCALE STILL UNSETTLED.

Des Moines, Iowa, May 10.—John P. White, international president of the United Mine Workers of America, was delayed enroute to this city and as a result a conference of miners and operators over a wage scale was adjourned until tomorrow.

WILL NOT INSIST ON NAMING ROOSEVELT

ANNOUNCEMENT IS MADE AFTER PRO- GRESSIVE COMMITTEE MEETING

Perkins States Nomination of Roosevelt Will Not Be Insisted on if Republicans Name a Candidate Who "Stands for Progressive Principles and Is Able to Put Them Thru."

New York, May 10.—The Progressive party will not insist upon the nomination of Theodore Roosevelt for president of the United States if the Republicans will name a candidate who "stands for progressive principles and is able to put them thru," according to a statement made here tonight by George W. Perkins, after a meeting of the executive committee of the Progressive national committee.

"We, of course, are for Colonel Roosevelt," declared Mr. Perkins, "and shall suggest his name to the Republicans. If they reply that they will not agree upon the colonel, we shall ask them to name their man who ought to be as nearly unanimous a choice as our man is. We are willing to be reasonable for the sake of harmony."

Mr. Perkins' statement supplemented a statement issued by the executive committee in which it was said:

"If the Republican convention is responsive to the patriotic spirit that brought the Republican party into being and made it dominant for half a century, it will meet this crisis in a spirit of broad patriotism that rises above a partisanship. Should the effort fail, the responsibility for the result will not rest on the Progressive convention but will rest on other shoulders than ours."

"In this turning point in world history we will not stick on details. We will lay aside partisanship and prejudices, but we will never surrender the principles for which we stand and have stood and will follow only a leader who we know stands for them and is able to put them thru. We are for peace, but not for peace at any price."

"Reports from the Progressive organization throughout the country," said the executive committee's statement, "show that the American people have become impatient of leaders who hold that comfort, prosperity and material welfare are above honor, self sacrifice and patriotism; that we need a re-awakening of our elder Americanism; of our belief in those things that our country and our flag stand for; that our people are seeking a leadership of the highest order and most courageous character—leadership that will draft to itself for the country's benefit the unselfish and patriotic service of our ablest citizens. Our people are demanding that principles and policies shall be proclaimed and carried out by a man who has the wisdom to formulate them and the manhood to uphold them."

Complete delegations from every state will attend the Progressive national convention which will be held at Chicago simultaneously with the Republican national convention, it was announced.

MANY FIGHTS AND ARRESTS MARK PROGRESS OF CHICAGO STRIKES

CHICAGO, May 10.—Many fights and half a dozen arrests marked the progress of strikes in Chicago today. The most serious disturbance was an attack by thirty men on a sheet metal worker who had returned to work at the International Harvester plant as the man left the factory this evening. Before the police could rescue the workman he was seriously injured.

The Hinman street police district is the center of the present trouble. All policemen in the district are on duty night and day sleeping and eating at the station. About 100 patrolmen have been added to the usual detail of the district.

TWO ARE SHOT AT MEETING OF SHEET METAL WORKERS UNION

CHICAGO, May 10.—Joseph P. Cooney, 44 years old, and Bert Connors, 41, were shot and probably fatally wounded late tonight at a meeting of a local branch of the Amalgamated Sheet Metal Workers' union on the southwest side. Both men were shot in the abdomen. The meeting, attended by about two hundred men, had already adjourned when the shooting took place and the men who were present said they did not know what caused the trouble or who did the shooting. A number have been taken into custody.

According to the police, the trouble is supposed to have started as the result of a quarrel over a coming election of officers in which the two wounded men are candidates for office.

INDEPENDENTS MAY WITHDRAW OPPOSITION TO SALE OF COMPANY

Agreement May Be Reached Today Between Independents and Chicago Telephone Company.

Chicago, May 10.—Agreement between the Chicago Telephone company and the independent companies in the state may be reached tomorrow according to interested persons, whereby the independents will withdraw opposition to the sale of the Chicago Telephone company to the Chicago Telephone company.

Ratification of the sale is being sought before the Illinois Public Utilities commission, the independents opposing approval of the transaction.

At the close of the hearing today Attorney Bruce A. Campbell representing the Kinloch Long Distance Telephone company asked that the hearing be not called tomorrow until afternoon, as the independent companies wished to have a conference in the morning with the Chicago Telephone company representatives over the service which the Chicago company would furnish the independents if the plant of the tunnel or automatic company should be taken over. The lawyer said the Chicago company had made a proposition to entertain a suggestion from the independents if the latter would withdraw opposition to the ratification of the tunnel company purchase. His request for delay in resumption of the hearing was granted.

During the progress of the day's hearing a number of witnesses were heard in opposition to the sale of the automatic company.

THIRTEEN NEGROES DIE IN PICTURE THEATRE FIRE

Twenty-Five or Thirty Others Are More or Less Seriously Hurt.

Norfolk, Va., May 10.—At least thirteen negroes were burned to death while from 25 to 30 others were more or less seriously hurt tonight in a fire which destroyed a frame hall in which moving pictures were being shown at Wallace town, a hamlet on the dismal swamp canal twelve miles from Norfolk. The fire resulted from the explosion of a gasoline tank which supplied the lights and it caused a panic among the spectators. The roof fell in before the exits, blocked by the surging mass of people, could be cleared and how many were caught in the building could not be determined tonight.

Thirteen bodies had been taken out at midnight. There was but one doctor within several miles and he exhausted every medical supply within a few minutes. Most seriously burned were rushed to Portsmouth in automobiles.

SIX THOUSAND REGISTER FOR RAILWAY CONDUCTORS' MEET

ST. LOUIS, Mo., May 12.—Six thousand delegates and visitors have registered here for the triennial convention of the Order of Railway Conductors. As the business sessions are executive, little information about the proceedings of the convention is obtainable. Resolutions authorizing the establishment of a pension fund for conductors 70-years old or over, and providing for a discontinuance of insurance assessments when members reach advanced years have been referred to a committee. The conductors today were guests of the Missouri Pacific Iron Mountain system in a trip over the Missouri Pacific terminals.

ENDORSE PROPOSAL TO RAISE \$5,000,000 FOR MISSIONS

Saratoga Springs, N. Y., May 10.—A proposal to raise \$5,000,000 by a world wide campaign for foreign mission purposes was endorsed today by the general conference of the Methodist Episcopal church, which adopted a resolution setting aside the years 1918 and 1919 as centennial thanksgiving years for the observance of the centennial of this branch of church activity.

LAKE FORK WOMAN SUICIDES.

Lake Fork, Ill., May 10.—A coroner's jury here today decided that Mrs. Marion Cass, aged 60 years, had committed suicide while temporarily insane. Early yesterday Mrs. Cass built a large bonfire of straw and then cast herself into the flames. Her sister, Mrs. F. M. Tarbox, was awakened by the woman's screams and rushed to her assistance. Mrs. Cass died a few hours later.

ADMITS SUBMARINE TORPEDOED SUSSEX

Germany States U-Boat
Commander Has Been Appropriately Punished

OFFERS INDEMNITY

State Department Indicates that
the German Statement
Will Be Accepted

NOTE EXPRESSES REGRET

WASHINGTON, May 10.—Germany in a note received by the state department today by cable from Ambassador Gerard admits that a German submarine torpedoed the channel steamer Sussex in violation of assurances given the United States, expresses regret for the incident, announces that the submarine commander has been appropriately punished, and declares readiness to pay an adequate indemnity to Americans injured on the vessel.

It was indicated at the state department that the German statement that the offending commander had been punished would be accepted and the Sussex case considered closed except for arranging for the payment of indemnities.

The German note signed by foreign minister Von Jagow addressed to Ambassador Gerard is dated May 8th, and the ambassador's cablegram transmitting it May 9th. The text follows:

Text of Note
"Supplementing his note of the fourth instant, concerning the conduct of the German submarine warfare, the undersigned has the honor to inform his excellency, the American ambassador, Mr. James W. Gerard, the further investigation made by the German naval authorities concerned in regard to the French steamship Sussex on the basis of the American material, has been concluded in the meantime. In conformity with the result of this investigation the assumption expressed in the note of the undersigned of the tenth ultimo that the damage of the Sussex was to be traced back to a cause other than the attack of a German submarine, cannot be maintained.

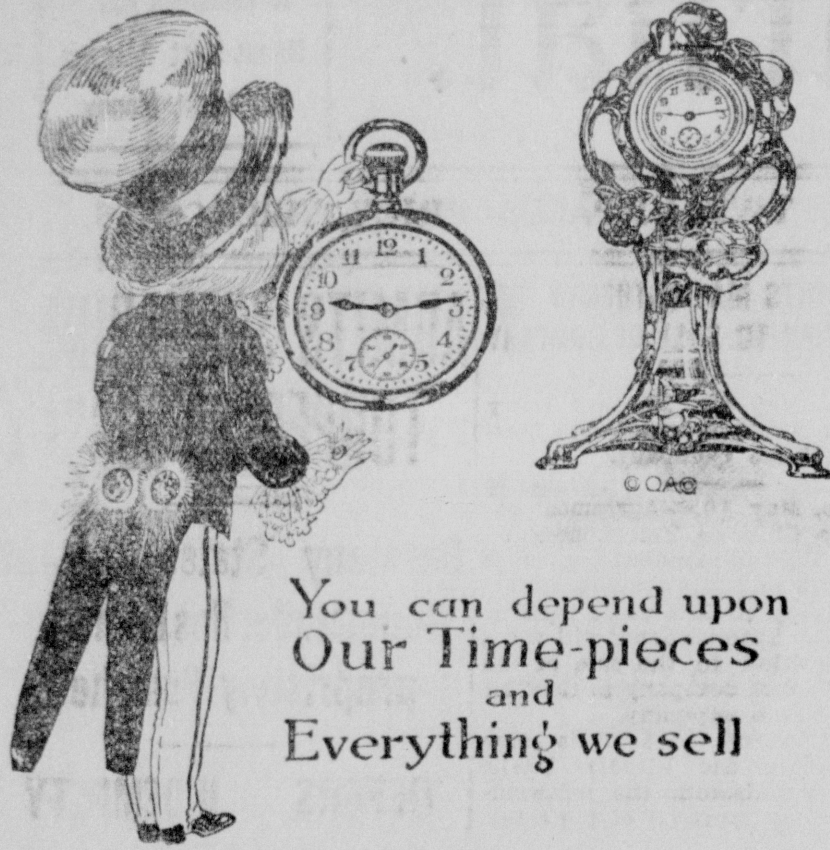

"Such an assumption had to be arrived at with certainty from the material in the possession of the German government for itself and without further knowledge of the circumstances connected with the torpedoing of the Sussex, the more so as apart from the points enumerated in the note of the tenth ultimo, the following facts had come to the attention of the admiralty staff of the navy: The reliable information; March twenty-four, nineteen sixteen, approximately at the same time as the Sussex, an auxiliary war ship left the port of Folkestone with a large transport of British infantry on board, on the same day a transport steamer was torpedoed in the channel; a few minutes preceding the explosion on the Sussex, she had passed thru a mass of shipwreckage, which created the impression that a ship had sunk at that spot shortly before. All these facts justified the conclusion that the only cause of torpedoing which could be considered under the circumstances had struck the British war vessel whereas the Sussex had not with an accident in some other way.

"However, on the basis of the American material the German government cannot withhold its conviction that the ship torpedoed by the German submarine is in fact identical with the Sussex for in accordance with this material, the place, the time and the effect of the explosion by which the Sussex was damaged agree in the essential details with the statements of the German commander, so that there can no longer be any question of the possibility of two independent occurrences. An additional reason is constituted by the fact that officers of the American navy found fragments of an explosive in the hold of the Sussex which are described by them upon firm grounds as parts of a German torpedo.

"Finally the counter evidence which was deduced in the note of the tenth ultimo from the difference in appearance of the vessel described by the submarine commander and the only reproduction of the Sussex then available, has proved to be untenable, inasmuch as according to a photograph of the damaged Sussex now in hand, the characteristic distinctions no longer existed at the time of the accident; while the Sussex in the photograph of my Daily Graphic included in the note only carried one mast and also showed the white gangway customary on passenger vessels on the level with the port holes. O. S. V. the reproduction of the damaged Sussex shows a second mast and a uniform dark color and thus approaches in her outer appearance the description of the vessel as furnished by the submarine commander.

Before the city was furnishing its own current for pumping from the north side wells one month's bill for power furnished was \$2,500.

If the city commissioners have funds placed at their disposal for the purchase of new light and water department equipment they will use just as much care as would be true if they were making purchases on their own account.

If the bonds are authorized at the coming election it will be months before the bonds are sold and the money available for purchasing power equipment, new electric wires and water mains. It will be some time in 1917 before such purchases could be made, and if war prices for machinery prevail now, there is no reason for supposing that the same levels will be maintained in 1917.

If you believe in the municipal light plant and want it to be modern and efficient:

If you believe in so increasing the water supply that more water will be available for use and sale:

If you believe in increasing the efficiency of the fire department with the addition of modern equipment:

If you believe in rewiring the city lighting system and thus free the public from the danger of old wires without insulation—

Vote in favor of the bond issue next Tuesday.

"Terry's Mexico."

The United States Infantry Association is calling the attention of army officers to the vast fund of information contained in "Terry's Mexico," a book especially interesting and valuable at the present time. A letter sent out by the Association says: "You would not think, for a moment, of visiting any foreign country without a guide book giving the railroads, cities, towns and villages, and the characteristics of the country and people. Terry does all this and more for Mexico. You need this knowledge of Mexico if only for the purpose of following the daily news. You will remember that Rowan had only three hours to get ready to carry the 'message to Garcia,' but he had studied the country beforehand."

Jacksonville Must Go Forward.

The people of Jacksonville should realize that the present is really a critical time in the affairs of Jacksonville. There have been few improvements made during recent years because the funds were not available. The history of American cities proves that in cities where public improvements were not continually made that real estate values grow less and business deteriorates.

It is good business to borrow when with the borrowed capital it will be

Rippling Rhymes

By WALT MASON

THIS WORLD.

This world, after all, is a bully old place, it ranks with the best of the spheres, and he to his family was a disgrace, who called it a valley of tears. You see a man weeping for something he's lost, some chap who a hurt in the game; he says this old world is a snare and a frost, and you take his word for the same. But hundreds are happy while one makes his wail, while one views the world with a frown; and scores of us drift to the harbor of happiness still where one strikes a snag and goes down. A little of trouble we certainly have, but when some affliction annoys, just go to the drug-store and order some salve, and grin with the rest of the boys. A little of worry, a little of grief, to season our days as they dit; if there were no darkness, we'd soon beg relief from light that refuses to quit. This world we infest is a bully old sphere, no niftier worlds are about; and I am enjoying my residence here so much that I'll hate to get out.

DATES IN ILLINOIS HISTORY.

May 11, 1728—Plans were drawn up for an elaborate attack on the Chickasaw Indians by the French and the Illinois Indians.

possible to increase the earning capacity and reduce the operating expense. This is true with reference to the proposed bond issue. The bond tax will mean only a slight increase in the taxes paid by each property owner and this added expense is more than offset by the benefits which would result in better lighting and water service, and greater protection from fire.

The municipal light plant is a great asset for the city. It is doing good service now but with enlarged equipment can render better service at lower operating cost. It is a big asset, for without being used to drive any private lighting corporation out of business, fully equipped it will stand, furnishing light for the streets and furnishing protection against unreasonable charges by any private lighting corporation.

The Republican Convention.

The demand for tickets for the Republican national convention is so great that there have been 33,000 requests for the 11,000 tickets which will be available. The price of tickets was first placed at \$50 and it was thought that this figure would prevent a rush, but it soon became apparent that the \$50 limit was not scaring off those who wanted to attend. Now the national committee has one of its biggest jobs in making an equitable distribution.

The demand for tickets is only one of the indications that this year's convention is likely to be one of the greatest in the history of the party. Such vital issues are pressing for solution that the party realizes how important it is to select some candidate who will not only have a good chance of election, but who will truly represent American ideals in coming days. Just what the next four years hold for the United States in meeting the conditions and questions which will come after the close of the European war is a question which is puzzling thoughtful Americans.

It is largely a reflex of this feeling that has centered this great interest on the next Republican convention. That interest is heightened, too, by the belief that the two factions of the party will unite in harmonious action and the knowledge that there is possibility of so stirring up past differences that party success at the polls in November will be impossible. But now everything augurs well for a harmonious convention, one which will be a great demonstration, not only of party interest but of patriotism, and which will take its notable place in the history of the United States.

MISS COALE'S REPORT

At the May meeting of the Morgan County Anti-Tuberculosis League, Miss Martha Coale, visiting nurse, presented her report, showing 4 clinics held, with 5 doctors in attendance. Of the 21 examinations, 15 were children, 9 were male, 12 were female, white 13 and black 8. Nineteen tests were given, 9 showing positive and 10 giving negative reactions. Sputum examinations, 3, 2 positive and 1 negative, were made. Of 222 patients at the clinic, 101 attended for tuberculin treatment. The nurse made 39 new calls and sent one patient to Our Saviour's hospital. Nursing care was given in 92 homes. Three hundred and eighty-nine visits were classified as follows: tubercular, 189; general, 115; and metropolitan, 94.

THE PEOPLE PAY

To the people of Jacksonville: You have paid and are paying for your city electric light and power plant and street lighting system. You have paid also for the water system of the city and for the fire department. They have cost several hundred thousand dollars and you own them today.

You have paid and will pay for the street car system, the gas plant and mains, the electric light plant and service lines throughout the city, which are controlled and operated by the McKale system. You have paid for these properties and do not own them.

You have or will have paid for both the city property and the company property, and you will own only the former.

GERARD DELIVERS AMERICAN REPLY TO GERMAN FOREIGN OFFICE

Submarine Controversy is Regarded in Berlin as Settled.

Berlin, May 10.—By wireless to Tuckerton, N. J.—The American reply to the German note was delivered by Ambassador Gerard to the foreign office at 1 o'clock this afternoon.
(With the presentation of the note the German-American submarine controversy is regarded here as settled and negotiations so far as they concern the past are virtually closed.)
Germany holds that its orders to submarine commanders were issued without strings or condition and that therefore there is little occasion to take up the latest note for further discussion. Both the Lokal Anzeiger and the Zeitung am Mittag regard the note as acceptable to Germany. The Zeitung am Mittag commenting on the American answer under the caption "Wilson's final word" says that the German-American crisis with its danger of a rupture now is a thing of the past. The paper is not altogether pleased with the manner of expression but says that is unimportant.

Wire cloth, screen doors, adjustable window screens, frames etc. in endless variety at Brady Bros. Our prices are right, our goods the best.

ADMITTS SUBMARINE
FORPEEDED SUSSEX

(Continued From Page One.)

of all the facts at hand the German government considers it beyond doubt that the commander of the submarine acted in the bona fide belief that he was facing an enemy warship. On the other hand, it cannot be denied, that misled by the appearance of the vessel, under the pressure of the circumstances he formed his judgment too hurriedly in establishing her character and did not therefore act fully in accordance with the strict instructions which called upon him to exercise particular care.

Commander Punished

"In view of these circumstances the German government frankly admits that the assurance given to the American government in accordance with which passenger vessels were not to be attacked without warning has not been adhered to in the present case. As was intimated by the undersigned in the note of the fourth instant, the German government does not hesitate to draw from this resultant consequence. It therefore expresses to the American government its sincere regret regarding the deplorable incident and declares its readiness to pay an adequate indemnity to the injured American citizens. It also disapproved of the conduct of the commander, who has been appropriately punished.

"Expressing the hope that the American government will consider the

case of the Sussex as settled by these statements, the undersigned avails himself of this occasion to renew to the ambassador the assurance of his highest consideration.

BILL TO CANCEL CHARTER OF
CHICAGO CANAL & DOCK CO.

SPRINGFIELD, Ill., May 10.—Attorney General Lucey today instituted in the circuit court of Cook county a bill asking that the charter of the Chicago Canal & Dock company be cancelled. If successful the attorney general will cause the Chicago company to dispose of approximately \$6,000,000 worth of real estate in Cook county. The suit was instituted by William A. Bowers.

"The corporation is illegally holding a large amount of real estate," said Assistant Attorney General Lester H. Strawn today, "and, as far as the state is able to learn, no effort has been made to comply with its charter, but the land is simply being held for speculative purposes."

HILLES ISSUES STATEMENT.

New York, May 10.—Charles D. Hilles, chairman of the Republican national commission, in a statement issued today pointed to the results of the recent elections as indicative of a gradual growth of Republican sentiment throught the country.

Await Outcome of Conference.

Washington, May 10.—Further developments in the Mexican situation still awaited tonight a definite outcome of the El Paso conference between Generals Scott, Funston and Obregon. Officials of both the war and state departments appeared confident that an agreement satisfactory to both sides would be negotiated although they hesitated to predict how much more time might be required.

Eusebio Arredondo, Mexican ambassador-designate, called on Counselor Polk at the state department late in the day. Both he and Mr. Polk said the visit had no significance and was merely a general discussion of the situation. Mr. Arredondo had no additional advices from his government to present and Mr. Polk could give him no news as to the conference at El Paso.

Secretary Baker received a report from General Scott on the long discussion with General Obregon last night. It stated that while the Mexican war minister had talked over a suggestion for co-operative border patrol the proposition was not formally presented as a substitute for the protocol previously worked out.

General Scott did not transmit details of the new discussion but indicated that he asked General Obregon to submit his new plan later.

Unlikely to Change Decision.

Officials here tonight thought it unlikely President Wilson would accept any agreement that looked to withdrawal of the American troops to their own side of the line, even with promises that a complete patrol of the Mexican side would be established by the de facto government. There was nothing to indicate that the president was inclined to change his decision that General Pershing's forces will remain in Mexico until the de facto government has demonstrated beyond question its ability to control the situation there.

Meanwhile some of the additional troops ordered to the border yesterday were presumed to be enroute tonight. The war department had received no direct reports from the various regular commanders, although many routine messages dealing with the movements came today. Mobilization of the Arizona, New Mexico and Texas National Guard was proceeding under state authority until the forces could be formally mustered into the federal service and placed under direct command of General Funston.

KNIGHTS OF COLUMBUS
END CONVENTION.

LaSalle, Ill., May 10.—The Knights of Columbus of Illinois ended their convention tonight, naming Danville as the 1917 convention city. The officers elected follow:

LeRoy Hackett, Chicago, state deputy; Edward Houlihan, Chicago, secretary; C. W. Stenger, McHenry, treasurer; W. D. Rose, Springfield, advocate; J. R. Kelahan, Granite City, warden; James E. McCrall, LaSalle; John E. Maloney, Chicago; John F. Kaler, Rochelle; D. J. Normoyle, Chicago; H. E. Sanford, Duquoin; Raymond Neal, Mattoon; John Brennan, Chicago; R. A. Milroy, Aurora, delegates to supreme council at Davenport.

ARGEST THREE AMERICANS.

Mazatlan, May 10.—by radio to San Diego, Cal.—Three Americans and one Chilean, officers of the American over Schooner General Mariscal of San Francisco, which was destroyed by fire in the harbor of Acapulco on April 12th, have been placed under arrest by the Mexican port officials at that place in connection with the loss of the vessel. Under orders of General Mariscal of the state of Guerrero all four are to be brought to trial and if found guilty, it is said, they will be executed.

COMPLETE NAVAL BILL.

Washington, May 10.—The naval appropriation bill was completed today by the house committee except for the building increase program, on which a vote will be taken May 18th. A draft prepared by the subcommittee was approved without many changes. Its details already have been made public. An unsuccessful fight was made in the committee against conferring the rank of admiral on the chief of operations of the navy while occupying the office and against the provision for fifteen aides in that office.

FIND CARLISLE GUILTY.

Cheyenne, Wyo., May 10.—William L. Carlisle, was declared guilty of train robbery late today by a jury in the district court. The jury recommended life imprisonment. Carlisle was on trial in connection with the holdup of Union Pacific passenger train at Corlett Junction April 21st.

WOMEN DEFEAT PLANK.

Minneapolis, Minn., May 10.—A proposal to include in the resolution a plank committing the Mississippi Valley suffrage conference directly to the support of the campaign for a federal amendment enfranchising women was defeated at the closing business session of the association here tonight.

I. C. GRANTS WAGE INCREASE.

Chicago, May 10.—An increase of wages amounting to two cents an hour was granted freight handlers and some of the clerical force in the freight department here today by the Illinois Central railroad. About 800 employees are affected.

MAY CREATE FOUR YEAR COURSE
FOR BAKERS AT STATE UNIVERSITY

Committee Appointed by Master Bakers to Investigate Into Advisability of a Long Term.

Springfield, Ill., May 10.—Plans which are expected to develop into a school for bakers, involving a four-year course at the Illinois State university, were set on foot here today by the Illinois Master Bakers' association following an address of Prof. S. W. Parr of the chemistry department of the state university.

Professor Parr told the bakers that the university would, he was sure, be ready to co-operate toward better facilities for the study of baking problems in a scientific way. A committee was appointed by the bakers to investigate the advisability of a long term course at the university and to make a report at the next meeting. A short course is at present given.

At today's session, the present officers were all nominated for reelection, the balloting to come tomorrow before adjournment at noon. The present officers are Andrew Schneider of Arcola, president; Charles A. Paesch of Chicago, vice president; Edward T. Clissold of Chicago, secretary, and George Geissler of Joliet, treasurer. Paesch is opposed by George Grimm of Peoria, retiring member of the executive committee. Theodore Soellinger of East St. Louis was nominated for executive board member.

IOWA'S DELEGATION TO NATIONAL
DEMOCRATIC CONVENTION WILSON'S

CLINTON, Iowa, May 10.—Resolutions endorsing the national administration and instructing the Iowa delegation to the Democratic national convention to support Wilson for re-nomination were adopted today at the closing session of the state Democratic presidential preferential convention.

Efforts of a faction in the resolutions committee to secure endorsement of equal suffrage and prohibition were fruitless.

J. J. Doty of Shenandoah was elected permanent chairman of the convention.

Contributions in various sums up to \$250 were made by individual delegates in response to an address by National Committeeman Wilbur W. Marsh of Waterloo, urging a "come across" Democratic club.

John T. Clarkson, candidate for attorney general, delivered an address. At a conference of second district delegates it was recommended that Michael F. Cronin of Muscatine receive the nomination for congress from that bailiwick.

DURBIN.

Misses Margaret Wolfe and Ethel Thomason of Jacksonville spent Sunday and Monday with Mrs. Ernest Jones.

Mrs. Effie Walters, Mrs. Ernest Jones and Miss Irene Oxley spent Thursday with Mrs. Sargent, west of Jacksonville.

There were more than sixty present at the Missionary meeting Wednesday at the home of Mrs. Lavinia Scott. Miss Nourse made an able address on Africa and five new members were added.

Mrs. Sadie Darley accompanied Miss Nourse to Champaignville Thursday and a new W. F. M. Society was organized there.

Miss Rhoda Scott attended the Federation of Clubs at Virginia on Thursday and Friday.

Mr. and Mrs. Robert McDevitt of Waverly, were Sunday guests of Mr. and Mrs. Hugh McDevitt.

Floyd Smith spent Saturday and Sunday with Earl Laverick in Franklin.

THREE BISHOPS

Because a Figure is Slender—

Because a woman is slender, she must not think that any corset will fit her. She must select her corset with quite as much care as the large woman. The slender woman's corset must not be too high, too long, nor too heavily boned. Nothing is more unsightly than the imprint and projecting bones of a thin woman's corset, seen thru her blouse or gown.

There are to be found in the American Lady Corset line, innumerable ideal styles for the individual types of slender figures.

No matter what the proportions of your figure, there is an American Lady Corset model for you. Prices range

\$1, \$1.25,
\$1.50, \$2,
\$2.50, \$3,

JEWISH CHARITIES
Indianapolis, Ind., May 10.—Aaron Cohen of Pittsburgh, was elected president of the National Conference of Jewish Charities at the close of the four day session here today. Jacob Billikopf of Kansas City, Mo., was chosen president of the National association of Jewish Workers. Bernard Grenfelder of St. Louis and Louis H. Levin of Baltimore were re-elected treasurer and

secretary of the National conference. The workers named Monroe Goldstein, of New York, secretary-treasurer.

GRANT WAGE INCREASES.

Chicago, May 10.—Wage increases of from two to five cents an hour have been granted approximately 40,000 employees in the stock yards district by the various packing concerns during the last few days, it was learned today. At present there

are about 500 men on strike. They are reported to be mainly from the hog killing department of Armour brothers. Trouble in several packing companies has been averted by the increase, it is said.

SINK TEUTON TRANSPORT.

Paris, May 10.—A French submarine sank an enemy transport laden with war material in the lower Adriatic sea yesterday, says a Havas despatch from Rome.

The Corset Should Vary—

Not only fashion, but comfort demands that the Corset should vary with the requirements of the occasion, just as the gown varies.

If a firm Corset, which holds the figure in place, is used for general day-time wear, it is then possible to choose a lighter, more comfortable model for the evening—especially, if dancing is to be an event of the evening. The same is true in regard to a sport corset. It may be shorter, more flexible affair than that for general use.

There are American Lady Corsets in an almost unlimited range of styles—in front lace and back lace designs—among them there is one or more models which will be perfect for "your" needs. Prices range

Indians.

This series of papers has evolved a number of replies of information.

One: from a very reliable former citizen was regarding an Indian visit here. The gentleman wrote: "Did you know that the 'Public Square,' and there wasn't a single blade of grass in the whole wide dusty expanse, was for a large part of one day packed as closely as could well be, with real, live, red Indians?"

Well, it was, and I saw, and was in the midst of the dusky crowd, and narrowly escaped going out of town with it. "How the old time comes over me," as the old play puts it."

Perhaps it was of that occasion that the following from an old letter was given in these papers, April 2, 1915, under the heading "Some old letters." The letter in question, from quite a young lady, who had come here from Philadelphia, Pa., not so long before, had this, under date of Oct. 17 (1841?): "I have seen but 800 Indians since I came here, and they only passed thru town about two years ago, on the way from the hunting grounds of their forefathers to go far away towards the going down of the sun. It was the last remnant of the Pottawottamies. They went to the other side of the Rocky Mountains. * * * I saw but one handsome one among them, and that was a chief's son."

The Cincinnati, Ohio, Journal of Sept. 20, 1833, had this item of late news: "Jacksonville, Ill., Aug. 10. On Thursday last, a company of Indians passed thru Jacksonville. There were seventy including men, women and children. They belonged to the Shawnee tribe—had sold out their lands in Ohio, and were on their way to Jackson county, Mo. They looked cheerful and happy, and were all well mounted."

Jackson county, Missouri, since 1833 has developed the good sized town of Kansas City.

McPhersons.

Mrs. Landis, wife of the Rev. Edward B. Landis, new pastor of Westminster church, was a McPherson, and some of her people used to live here. In a family sketch was the following statement:

Benjamin Goodrich McPherson came from Hopkinsville, Kentucky, to Jacksonville in 1829. He reached there late in the Fall, and following the example of several others, he went down on the Maudslayi (a small stream) and cut blackjack poles and built a small cabin on the Square, as it is now laid out, and spent the winter there. In the following Spring he went about 16 miles west of Jacksonville (and) located a homestead west of where old Bethel now is, where he spent the rest of his days.

James D. McPherson attended Illinois College that winter, and the following two winters. He taught school at Bethel and elsewhere in Morgan county."

Evans Mills.

Feb. 10, 1916, reference was made in these sketches to Evans Mills, and the question raised where this post office was in Morgan county. This brought an answer in part as follows: "Evans Mills was established in 1854, and its first postmaster was George Woods, a brother of Abram and Joseph Woods. The office was named for the Rev. William Evans, a Methodist minister, who ran a saw mill in Hart's Prairie, or Hartland."

Mr. Evans married Martha A. Hart, oldest daughter of David and Elizabeth Hart. After Mr. Evans' death, his widow became the wife of R. H. Dowell, the father of G. J. Dowell, of Franklin. The post office was kept in a store owned and operated by George Woods. This store was run until the Fall of 1855, when George Woods sold the store to "Uncle" Eddie Seymour, and he installed his son, the Rev. James Seymour, as clerk and postmaster. Later the store was sold to "Uncle" David Hart and he became postmaster. He closed out his stock of goods and the post office was moved to the home of "Uncle" Eli Austin, which later was bought by the late Solomon Bull, and is now owned and occupied by J. J. Bull.

The mail was carried on horseback from Edwardsville, by the mail carrier, thru to Franklin."

Evans Mills was in the extreme southeast part of Morgan county, George J. Dowell, of Franklin is State Deputy Game and Fish Warden, at Franklin, and this information was furnished by him, except the statement that the post office was in the extreme southeast part of the county.

The Coles.

The death of Clark S. Cole last Thursday or Friday, in Chicago, takes all but one of a family well

Known here for years.

Clark was the son of David and Sarah Cole, and a native of Jacksonville. The family lived the first door west of the northwest corner of West and Morgan streets—on Morgan. At the corner was the blacksmith shop, still standing, where Mr. David Cole pursued his trade for many years.

David Cole was born in Middlesex county, N. J., February 21, 1817. His father being James Cole, and the progenitor of a family of thirteen children, David being the oldest son.

David Cole served an apprenticeship according to the custom of the times, and became a blacksmith, always from youth being dependent upon himself. In April, 1839, he started for the far West, to which he secured passage on a boat from Pittsburgh to St. Louis. The boat was burned near Cairo, Illinois; and, after being forty days out from Brunswick, N. J., Mr. Cole arrived at Meredosia, Ill., May 30, 1839. He came immediately to Jacksonville where he secured work with James Cosgrove, until Mr. Cosgrove's death, about two years later. He then took charge of the shop, as partner with Mrs. Cosgrove. This relation lasted about four years, when Mr. Cole established his own business on the corner spoken of above.

Mrs. Cosgrove married a Mr. Lucas, father of Hon. James M. Lucas, some time editor of the Journal, and she was the mother of Thomas and Henry Lucas—having a son William Cosgrove by her first husband. The Lucas family lived in 1857, and for some years after in a story and a half brick house at the northeast corner of State and West streets. Mrs. Lucas went to Melean county, which was presumably her last place of residence.

Mr. Cole was married, Jan. 2, 1842, to Miss Sarah Southerland, of Kentucky. They were the parents of James W. and Henry T., who died in infancy, John Edgar, Benj. F., Clark S. and Charles W.

Mr. Cole continued his business successfully for some years, dying Aug. 8, 1894. Mrs. Cole preceded him in death, March 22, 1887. They were staunch members of the old First Presbyterian church, but, when that was merged into the State Street church, Mr. Cole went to the Methodist church. He was a man of very decided character and stood by his views to the last. Mrs. Cole was probably about equally decided in character. So it was not surprising that the boys were of the same characteristics.

John Edgar Cole took after his mother in looks and size, being a large man. He enlisted in the 27th Regt. of Ill. Vols., Co. K., and served with that regiment in the Mississippi campaign, was captured in the great battle of Chickamauga, and was held in seven different southern prisons for seventeen months before being exchanged. He was a valiant soldier, and deserved better treatment. He served, probably, until the end of the War, after which he went to Aurora, Ill., where he was a skillful ornamental painter in the shops of the Chicago, Burlington and Quincy railroad. Cole afterwards returned home, and was accidentally shot in his room over the shop. He lived for some days or weeks, and succumbed, dying about 1874.

Benjamin F. Cole was a blacksmith and general worker, and an exceptionally reliable one. Neither he nor J. Edgar ever married. Benjamin held on to the old shop and pursued his business till his death, Oct. 1, 1890.

Clark S. Cole served in the 14th Regt. of Ill. Vols., and became a printer. He soon went to Chicago, which was his home to the last. He made a specialty of G. A. R. and other badges and emblems. He was married while in Chicago, and was the father of two sons, William and Edward. The wife and elder son died some years ago. Edward was a bright young fellow, and has made a decided success in a business way, being employed in Wall street, in New York city.

Charles W. Cole left here some years ago, after his marriage to Miss Belle Martin, a pretty young lady of Jacksonville. He was in the Fire Department of Chicago, for some years, and presumably is still there. All the boys attended the old West Jacksonville District school, sometimes called "Bateman's school." Many of the west end boys and people, between the fifties and sixties and eighties knew Mr. Cole and his sons.

INDUSTRIAL BOARD EXAMINER HEARS HOLT CASE.

Examiner May representing the Industrial Board under the workmen's compensation act was in the city yesterday hearing evidence in the case of James Holt against the City of Jacksonville. Holt claims he was injured, while in the employ of the city working at Diamond

Grove cemetery in the spring 1915. He claims that he injured his side in lifting an urn and as a result of the injury was in the hospital for several weeks and has not been able to do any manual labor since that time. Examiner May took the testimony of Dr. W. P. Duncan, Phillip Grant, Daniel Kelley, James Holt and George W. Davis. Mr. Holt was represented by Attorney William N. Hairgrove while John J. Reeve appeared for the city.

The Asbury Bible school will give an ice cream social at the home of Carl Hembrough Friday evening. Everybody invited.

Washington, 1; St. Louis, 0.

Washington, May 10.—St. Louis was shut out by Washington today 1 to 0, in a pitchers' battle between Plank and Boehling. Washington's run came in the sixth when Milan was passed, took second on an infield out and scored on Shank's single to left. Shanks saved game for his team in the eighth when he caught Austin's fly after a sharp sprint and threw out Shotten at the plate.

WILHOIT'S HOMER TURNS VICTORY TO BOSTON

BRAVES AND CUBS FIGHT EIGHT SEE-SAW INNINGS

Williams and Zimmerman Hit Home. Runs But Errors of Cubs Spoil What Chance Chicago Had for Winning.

Chicago, May 10.—Wilhoit's home run in the ninth inning turned victory to Boston today after the Braves and Cubs had fought eight see-saw innings. The score was 11 to 10. For Chicago, Williams and Zimmerman hit home runs but the errors of the local team came at critical times and spoiled what chance Chicago had for winning.

SCRATCHED 10 YEARS HEALED IN ONE WEEK

Finally Cured by Using One Dollar Bottle of Amolox.

One bottle of Amolox cured me. For ten years I suffered with eczema of the scalp, my head being covered with scales and scabs. I tried everything recommended and everything advertised without relief until I bought a bottle of Amolox. It relieved the itching at once and one bottle entirely cured my eczema. I heartily and cheerfully recommend it to all sufferers of this horrible disease.

INCREASING DROUGHT IN THE SOUTHWEST RAISES WHEAT PRICES

Market Closes Strong 1% to 1 1/2 Cents Up—Corn Values Head Downgrade.

Chicago, May 10.—Increasing drought in the southwest and west together with damaging gales there and in the northwest as well, made wheat prices today mount higher and higher. The market closed strong 1% to 1 1/2% up with July at \$1.17% @ 1.17% and Sept. at \$1.17%.

Corn lost 1/4% to 1/2% @ 1/2% advance and provisions off 2 1/2% to 1/2%.

Topmost prices of the session prevailed for wheat at the close. The ascent, which began with a sharp upturn as soon as the market opened, received initial impetus from the failure of predictions for widespread showers overnight. Instead the wires were crowded with advices of continued excessive dryness and heat in Kansas, Oklahoma and Nebraska. Sandstorms in Kansas and dust-storms in Nebraska were also reported and then came word that high winds had blown seed from the ground in thousands of acres in North Dakota. Experts traveling in Kansas telegraphed that the crop there was deteriorating beyond doubt and would fall back still more rapidly unless halted by immediate rain.

On the bulge some of the early buyers of wheat turned sellers, presumably to realize profits. Fresh purchasing, however, readily absorbed all the offerings. In the later trading, one house alone took 750,000 bushels of the July delivery.

Altho corn at first sympathized with the wheat strength, values later headed downgrade. Slackness of eastern demand tended to handicap the bulls and so too did assertions that corn acreage this season in the southwest would break all records. Greenbug damage in Oklahoma and Kansas lifted oats.

Besides houses with seaboard connections were active buyers of futures. Provisions weakened chiefly as a result of bearish opinions expressed by a Milwaukee packer. According to him hard especially was far too high—a famine price without any famine.

VEGETABLE CALOMEL

Vegetable calomel, extract of the root of the old-fashioned may-apple plant, does not salivate. As a liver stimulant, it's great. It's a perfect substitute for ordinary calomel (mercury); in fact, it's better, because its action is gentle instead of severe and irritating—and it leaves no mean, disagreeable after-effects. Physicians recognize this and prescribe may-apple root (podoophyllin, they call it) daily.

Combined with four other standard, all-vegetable remedies, may-apple root may now be had at most any druggist's in convenient sugar-coated tablet form by asking for Santal Laxatives. If you forget the name, ask for the box that has the picture of the soldier on it.

These tablets are small, easy to take and are really wonderful little performers. They quickly clean out the poisons that are causing you headache, constipation, sour stomach, biliousness, dizzy spells, bad breath and coated tongue.

They are mild. They never gripe. And they are a bowel tonic as well as a cleanser and liver regulator. A 10c box should last one several weeks. A Physician's trial package (4 doses) will be mailed you free if you write mentioning this advertisement. The Santal Remedies Co., 802 Madison Ave., Covington, Ky.

TRADING IN STOCKS STEADILY DIMINISHES AFTER FIRST HOUR

Uncertain Trend of the Opening Is Occasionally Relieved by Spasmodic Advances or Declines.

New York, May 10.—The only noteworthy feature of today's market aside from its further irregularity was the marked curtailment of operations. Even the first hour's business was only nominal and thereafter trading steadily diminished. The uncertain trend of the opening was occasionally relieved by spasmodic advances or declines, but these proved to have no actual significance except in a few prominent issues, whose movements resulted from well defined causes.

Mexican affairs continue to engage the attention of speculative interests and the possibilities of a federal inquiry of the coal situation caused some selling of stocks which may come within the scope of such investigation. Trade authorities referred to a "slow down" in the steel and iron industry and the United States Steel April tonnage statement which broke all previous records, seemed to fall on barren ground.

Rails were fairly active but realizing sales contributed to the heaviness of that group. Rock island, yesterday's outstanding feature, received a moderate setback. For the first time in a fortnight shipping shares failed to exercise the slightest influence.

Sugar shares alone were consistently strong. Total sales of stocks 420,000 shares.

Bonds were lower. Total sales of bonds par value \$3,325,000. United States bonds were unchanged on call.

C. W. Tuggs and family came down to the city from Liberty yesterday.

Regarding the Proposed Bond Issue

A two-mill tax will raise the annual payments on the bonds, which would mean a tax not to exceed \$2.00 per annum on a \$3,000.00 assessment, or \$1.00 on a \$1,500.00 assessment, house or property. It will be the means of giving us absolutely pure water and better lighted streets than we have now. On a \$5,000.00 assessed valuation, the tax would be less than one cent per day. For example—\$3,000.00 on full assessed valuation, one-third of which, \$1,000.00, is the assessed valuation upon which the taxes are extended. A two-mill tax thereon would produce \$2.00 taxes, about a half a cent a day.

City Could Sell Current

The adoption of the Bond Issue will permanently establish the Light and Power Plant, so the City can sell commercial lighting if the public desires to do so. It would give us an Electric Plant of at least 900 Horse Power, total. This would enable the City to sell current or the consumers to obtain electric current at a more reasonable rate than we have now.

Has it occurred to you how steadily our street lighting system is running, with no interruption. Our Water Department is just as constant; except that we are compelled, from lack of proper equipment at the North End Pumping Station, to pump quite often from the Creek at the South Pumping Station. The Bond Issue will allow us to soon close this plant entirely.

New Street Wiring Needed for Safety

Entirely new street wiring is a necessity to properly safeguard us from electric shocks and short circuits. When we get our city lines renewed with properly insulated wires, we then can demand with good grace, that all electric over-head wires be properly insulated by being replaced with new wires.

The adoption of this Bond Issue means renewed life and vigor to the people and the City of Jacksonville; it is the way and means, easily and with the least burden upon the community at large, to promptly and properly adjust the various back claims and demands against the City.

It will insure pure water and all we need.

It will insure better and more street lighting.

It will reduce operating expenses practically enough to meet the annual payments on the Bonds.

It will make the Water Tower pressure available so all will have proper service.

Will Cut Interest Budget

It will reduce the City's interest budget, because the general taxes and receipts could be used to quickly pay off the floating indebtedness and the improvement on paving and sewer bond deficit of \$22,000.00.

It will save the city the embarrassment of being sued on this deficit, which is long past due, and which by special request has been carried by the owners to July, 1916, at which time we, your Commissioners, hope to be able to properly arrange to take them up and thereby save the City's credit.

It will enable the City of Jacksonville to properly install, improve and equip completely, at one time, a complete and sufficient Water Supply System, including mains, wells, pumps, water tower, reservoir and motors; a complete new street line and wires; and a 500 Horse Power and 350 K. W. direct connected generating unit; housed in fire proof buildings at the Power House and Pumping Station.

For a Permanent Water Supply.

It will enable the citizens of Jacksonville to enjoy these good things, while they are alive and can enjoy them, instead of leaving all this pleasure to their beneficiaries. It is just like renting a good house—you simply pay for the benefit you receive annually, as you enjoy the same.

The Estimated Cost is as Follows

Two 34-inch screens, deep well; direct connected, rotary pumps at north end station	\$10,600.00
One large receiving reservoir at North station	3,000.00
Two miles of 10-inch cast iron water main on Allen, Walnut and Diamond streets to West State street	15,000.00
Water tower at west reservoir and motor driven rotary pump and reconnecting pipe line west of Park street to connect with water tower	5,000.00
One 2,000,000 gallon rotary, direct connected pump at south station, setting and connecting same	3,500.00
This pump to be moved to north pumping station when desired.	
One 500 horse power engine, equipment connected direct to 350 K. W. generator	48,000.00
New street, wiring and extending same to west reservoir, north pumping and south pumping stations and to the parks	10,000.00
Fire-proof buildings for engine and generators at power plant and at north pumping station	5,500.00
	\$100,000.00

Estimated Savings That Will be Made in Operating the New Equipment Over the Present Equipment.

The adoption of the Bond Issue will enable the City to at once install two Combined Chemical and Pumping Motor Fire Trucks (and pay for them out of the general taxes), which will reduce the operating expense of the Fire Department \$2,500.00 per annum; and will enable the department to get to all fires quicker, which will secure for Jacksonville a lower rate of Fire Insurance.

The placing of an electric-driven rotary pump at the South Pumping Station will save at least \$3,500.00 per annum there, by closing down the steam part that is there now.

The City Power Plant at present is producing each twenty-four hours, for pumping and street lighting, an average of 4,400 K. W. hours. This continuous load for 365 days in the year is an excellent foundation upon which to base its operations and guarantees a profitable operation. The engine we propose to install is guaranteed to save in fuel cost alone, on the present load of 4,400 K. W. hours, at least \$5,000.00 per annum.

The laying of the ten-inch water main over Allen, Walnut and Diamond streets to West State street, in addition to the mains we have now from the North Pumping Station, will be the means of a large saving in

operating expense, by the reduced friction head and water pressure caused by the enlargement of the mains' capacity.

The engine we propose to install for the City, is guaranteed to produce current for a fuel cost of six mills per K. W. hour. We could sell current at a good profit for seven to eight cents per K. W. H., and lower on a sliding scale.

The above estimates have been carefully gone over and prices submitted on the different articles and equipments. It will require every dollar of this Bond Issue to install and equip this system and every dollar will be spent for this purpose. After the Bond Issue has carried, it will require months of time to properly advertise for bids on the different items and then to receive and install the same. It would take possibly a year before all this work would be completed. It means lots of hard work and pains-taking care; but we will be glad to undertake it and give it our best service, for your benefit.

We, your Commissioners, recommend the adoption of the foregoing Bond Issue by your majority vote.

LABOR TROUBLES TENDS TO RESTRICT DEMAND FOR HOGS

Cattle Offerings Are Not of Sufficient Volume to Prevent an Upturn in Values.

Chicago, May 10.—Labor trouble at two of the larger packing plants tended today to restrict demand for hogs and more than wiped out an early upturn in prices. Cattle offerings did not have sufficient volume to prevent a decided upturn in values. Buyers of sheep and lambs had either to pay what was asked of to go without stock.

Seven Hundred Automobiles to be used by Delco-Light Salesmen

The "Delco," which has had such an important part in the automobile industry by being the pioneers in the making of starting, lighting and ignition equipment, have brought out a new product. The new product is Delco-light, an electric plant for farm, village and suburban homes.

They have created an entirely new organization to handle the new product and over seven or eight hundred salesmen will each use an automobile to carry the new product for demonstration purposes right out into the field where it is to go.

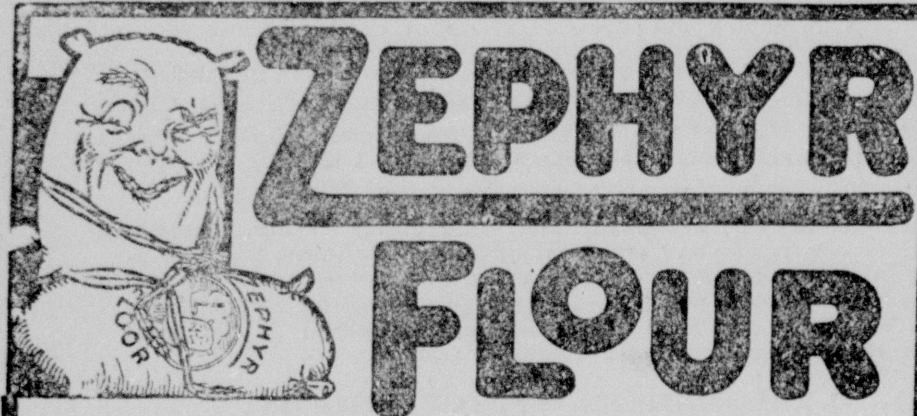

When You Want Something Particular Nice—

You can always depend upon K C not to disappoint you. The double raise makes doubly certain—nothing is left to "luck." If the batter is a little thin, K C will raise it light and feathery and it will be all the better. Jarring the stove or turning the pan around makes no difference—K C sustains the raise until baked.

Krumbles

The New Whole Wheat Food with the *Delicious Flavor* originated by the Kellogg Toasted Corn Flake Co.

TO SEE the way people take to KRUMBLES at the first taste—you might suppose they never before had eaten anything that tasted good.

True—never before has there been a whole wheat food with such a full, rich flavor and sweetness.

Krumbles is prepared from the finest of whole Wheat—all the wheat—cooked, "krumbled"—and delicately toasted, by a special process original with the Kellogg Toasted Corn Flake Company.

A dish of Krumbles with good milk or cream is a square meal in itself—an admirably balanced food. Go easy with the sugar—the more you chew Krumbles the sweeter it tastes!

In the WAXTITE package—10c. Look for this signature.

DR. ELBERT WING DIES IN CALIFORNIA

Well Known Physician Formerly of Chicago Graduated at Illinois College in 1875.

Many friends here will read with regret the following from the Chicago Tribune of Wednesday:

"Dr. Elbert Wing, for more than twenty years a physician in Chicago and an intimate friend of Dr. Frank Billings, Dr. Frank Johnson and others, died on Monday at his residence in Los Angeles, Cal. Dr. Wing was 64 years old. He was a graduate of Illinois College at Jacksonville studied medicine in Chicago, and practiced here from about 1885 until ten years ago, when he moved to California. He had been a member of the faculty of the Northwestern university medical school and at the time of his death was vice president of the Sewell-Clapp Envelope company of Chicago. He is survived by a widow."

Dr. Wing was the son of Dr. Harry Wing, one of the most distinguished graduates from Illinois college. Dr. Henry Wing graduated in 1844, and Elbert in 1875. Horace B. was another physician, brother of Elbert. He died some years ago. Dr. Henry Wing was one of the founders of Sigmund P. society, of which Dr. Elbert and Horace B. were members. A sister of the latter was the wife of Dr. C. George Jones, and well known here.

The Wing men were all brilliant and splendid, and the women were ladies of high character and social standing.

A RAW, SORE THROAT

Eases Quickly When You Apply a Little Musterole

And MUSTEROLE won't blister like the old-fashioned mustard plaster. Just spread it on with your fingers. It penetrates to the sore spot with a gentle tingle, loosens the congestion and draws out all soreness and pain.

MUSTEROLE is a clean, white ointment made with oil of mustard. There's nothing like it for quick relief for Sore Throat, Bronchitis, Tonsillitis, Croup, Stiff Neck, Asthma, Neuralgia, Headache, Congestion, Pleurisy, Rheumatism, Lumbago, Pains and Aches of the Back or Joints, Sprains, Sore Muscles, Bruises, Chills, Frosted Feet, Colds on the Chest (it often prevents Pneumonia). Nothing like MUSTEROLE for croupy children.

At your druggist's, in 25c and 50c jars, and a special large hospital size for \$2.50. Be sure you get the genuine MUSTEROLE. Refuse imitations—get what you ask for. The Musterole Company, Cleveland, Ohio.

Here's A 'Tip' On Rheumatism Follow It

AN ACCURATE DESCRIPTION
When your arm or your leg feels "all knotted" with rheumatism, when you feel as though your muscles were "tied up with a rope," you are really describing your pains accurately. Rheumatism is a condition of the body when acids and other deposits of impurities are actually "tied up" the strands of muscles in your body, or strangling the nerves and thus producing the awful shooting pains of sciatica, lumbago, etc. Medical authorities agree that these acid deposits are carried and deposited by the blood in the various parts of the body. It stands to reason, therefore, that local applications such as rubbing with so-called remedies can't do any permanent good. At best they can relieve the pain a little and only for a little while. The only way to effect a real cure is to attack the real cause—the blood. It is cleansed from the troublesome deposits by S. S. S., the reliable blood purifier that is now easing the pains and healing the ill of the third generation. S. S. S. "goes after" the impurities in the blood as relentlessly, as eagerly and as thoroughly as a ferret goes after rats; pursuing the poison into every vein and artery, into every nook and corner of the body, and chasing the troublesome substances out of the system. The blood thus cleansed, carries off the acid and other injurious deposits and "filters" them out of the body through the kidneys. S. S. S. is not a drug. It is a purely vegetable blood purifier. You can get S. S. S. at every drug store. But if in addition you should like to have the advice of the doctors in charge of our laboratory, do not hesitate to write us. You will receive free, conscientious and confidential advice. This is in line with our policy to make every effort to insure the best results from S. S. S. to every sufferer. Get a bottle at your druggist's today. If you wish special advice, write to Medical Department, Room 45, Swift Specific Company, Atlanta, Georgia.

FOURTH WARD WINS IN TRACK MEET

CHAMPIONSHIP CAPTURED AFTER HARD FIGHT WITH SECOND WARD.

Enthusiasm at High Pitch Thruout Afternoon—Seventh and Eighth Grade Contest Is Uninteresting—Juniors are Champions of High School.

It took one back to the days of real sport on Illinois field Wednesday afternoon. The occasion was the second annual track and field meet of the four ward schools, seventh and eighth grades and the high school. There was tournament and excitement from the time the first event was called until the last one was run.

There was a battle royal between the Fourth and Second wards which developed early in the meet. The teams from these wards sawsaw alternately for the lead. Toward the last, however, the Fourth ward drew away and captured the championship with the Second ward running a close second.

In the contest between the seventh and eighth grades there was not much to it, the eighth grade running away with most of the events. Pitch of the eighth grade was a star for his team. He won the 50 and 220 yard dashes and finished second to Pitts in the 100 yard dash.

In the high school contest the juniors were fortunate in having a number of the high school track stars and walked away with the championship of the high school.

You can talk about enthusiasm at high school and college track meets, but it is not in it with that displayed by the grade schools yesterday. The enthusiasm was real and ward yells were flung back and forth across the bleachers until it seemed the rooters would be exhausted. The Second ward while they did not win the cup displayed the most "pep," a bunch keeping up the ward yells all afternoon and even after their team had lost. They surely were a loyal bunch of rooters and made almost as much noise as all of the others wards put together. The Second ward also had the best lot of yells and showed better rehearsal than the other schools.

What the Fourth Ward lacked in yells, however, it made up in material. It developed some stars during the afternoon. Wheeler was one of the bright stars for his team. He won the running and standing broad jumps and the running and standing hop, step and jump.

There were lots of contest that caused merriment as well as excitement. The girls' races were closest. The Indian Club relays for both girls and boys caused some of the adherents of the rival teams to nearly have hysterics while the potato relays also caused excitement.

One thing the meet revealed was that there are some star athletes in embryo for future high school track teams. Some of the time made in the dashes and in the jumps was excellent when it is considered that the pupils have not had the opportunity for practice and no one to give them the necessary instruction. In the events yesterday, Fitch, Wheeler, Allen, Sullivan and other boys not yet in the high school showed splendid form and ability and will no doubt be heard from in high school athletics in the future.

When the number of entries is considered and the large number that had to be handled the officials pulled the affair off in remarkably good shape. It looked like it would be impossible to get all of the different wards separated early in the afternoon but by strenuous work and able assistance from Supt. Collins, members of the high school faculty, teachers from the various wards, Coach Huber and his assistants brought order out of chaos and the different events were run off without a hitch.

There were two walking contests. One was for speed and was won by John Collins in a close finish. The other was for the most graceful walker. Russell Pinkerton won first while Frank Robinson won the place. These walkers had many partisans in the crowd and it was difficult for the judges to make a decision.

Summaries:

Place kick—Day, seniors, first; Reynolds, juniors, second; Carpenter, seniors, third. Distance 113 feet.

Drop kick—Day, seniors, first; Towle, freshmen, second; Fitch, sophomores, third. Distance 134 feet.

IN KENTUCKY.

A Journal reader has submitted the following from a Kentucky paper which tells a good deal of truth about some parts of the Blue Grass state and labels others:

Man born in the mountains of Kentucky is of fued days and full of vices. He fisheth, fiddleth, cusseth and fighteth all the miserable days of his life. He shanneth water as a mad dog, and drinketh much bad whiskey. When he desireth to raise hell he planteth a neighbor and to, he repeateth 20 fold.

He riseth, even from the cradle, to seek the scalp of his grandfathers' enemy, and bringeth home in his carcass the ammunition of his neighbor's cousin's uncle's father-in-law, who avenged the deed.

Yes, verily, his life is uncertain and he knoweth not the hour when he may be jerked hence.

He goeth forth on a journey half shot, and cometh back on a shutter shot.

He riseth in the night to let a cat out, and it taketh nine doctors to pick the buck shot out. He goeth forth in joy and gladness, and cometh back in scraps and fragments.

A cyclone bloweth him into his neighbor's back yard, and his neighbor bloweth him into Abraham's bosom before he hath time to explain. Selah!

He emptieth a denjahn into himself and a shotgun into his enemy, and his enemy's son lieth in wait for him on county court day; and lo, the coroner ploweth up a four acre field to bury the remains of the man.

Woe, woe; is Kentucky, for her eyes are red with weeping and the soil is stained with the blood of "innocent moonshiners."

NEW PASTOR INSTALLED AT WOODSON PRESBYTERIAN CHURCH

Rev. Josephus Latham Now Formally in Charge—Several Ministers Took Part in Impressive Service

Rev. Josephus Latham was duly installed Wednesday night as the pastor of Woodson Presbyterian church. He took up his duties as pastor there some weeks ago but was not formally inducted into office until last night when the exercises outlined by the Springfield presbytery were carried into effect. Dr. A. B. Morey presided at the service. The sermon was delivered by Rev. E. B. Landis. The charge to the pastor was given by Dr. A. G. Bergen of Springfield and the charge to the people by Rev. Walter E. Spooner. The constitutional questions were asked by Dr. Morey. The church was completely filled by the service and the interest shown augured well for the success of the new pastor's work.

Born in Morgan County The Rev. Mr. Latham was born in Morgan county as his parents lived for some time in the Yatesville neighborhood. However, as a child he went with his parents to Indiana and that state has been his home since the greater part of the time. After graduating from two normal schools in Indiana he took a course in theology and then entered upon the active work of the ministry. He

Rev. Josephus Latham.

was stationed for some time in Terre Haute, Ind., and then accepted a call to Nauvoo Ill., where he served acceptably as pastor of the church for four years. From Nauvoo he came to Woodson and began his pastorate. He has been occupying the pulpit of the church for a number of weeks and has made a very favorable impression upon the members of the church and the people of Woodson with whom he has come in contact.

After the congregation had joined in singing "Count Your Blessings," the scripture lesson was read by Rev. Mr. Landis and the opening prayer was given by Rev. W. E. Spooner. The audience then joined in singing "All Hail the Power of Jesus' Name," and then Rev. Mr. Landis delivered the sermon, taking as his text Daniel 11: 32. "But the people that do know their God shall be strong, and do exploits." He said among other things, "We have been the recipients of blessings of God so long that we often forget to thank Him. We have temporal blessings for which we ought to be very grateful and spiritual blessings that we hardly know how to appreciate to their full value. If we were deprived of these things for a time then we would be able to place a real value upon them."

Service Basis of Christianity "Christianity has even emphasized two things—service and opportunity. In the sermon on the Mount you find that the foundation is service. We know Christ in all His power by the service He rendered to the world, never losing the opportunity to do good to all people. A man is known by the service he gives to his people and community. So in this community you can well ask yourselves what you are doing to meet the obligations resting upon you. Can you claim your right to live because of the service you are giving to God and the church?"

"A self-satisfied church has no right to live. The church must be awakened to a social consciousness. There are those in your community who need to be brought into the Sunday school and the church. They need to be welcomed into your service. They need the refining influence of the church, and it is your duty to study the moral and social and amusement needs of those about you, and to build up the work of the church along the most useful lines."

The Pastor's Duties Dr. Morey then asked the constitutional questions of the pastor and the people. The charge to the pastor was given by Rev. A. G. Bergen. When Rev. Mr. Latham was ordained it was Dr. Bergen who preached the sermon in an Indiana presbytery, and it was because of this long existing friendship that Dr. Bergen was asked to take part in the service last night. The minister said that it was the duty of the pastor to take heed to the body and keep in health, to take heed to the mind and endeavor to keep abreast of the times. He said that the minister must take heed to his soul by continued study of the Bible. But while a minister's work essentially concerns himself, it relates in a larger degree to his people. Mr. Latham was urged to be a pastor in the true meaning of the word, visiting and sympathizing with the sorrowing ones, encouraging those who need encouragement. Dr. Bergen said that it frequently happens that a pastor accomplishes more work as such than thru preaching. People can read sermons, he said, but he did not mean to be understood as belittling the work of the pastor, for

the pulpit is the minister's throne and gives great opportunity for doing good. The speaker said, "Preach the word and study to show yourself approved of God, rightly dividing the word of truth. Have a strong message and deliver it in a manly way."

Criticism Hurts Rev. Mr. Spooner in his charge to the people urged them to give the pastor their strong and continued support. The pastor of a church, he said, can do little without the sympathy and aid of his congregation. Often the work and influence of a minister is lessened by the critical attitude on the part of his people, and only the church unified in endeavor can accomplish that which is most greatly to be desired. He said that no pastor is perfect and that the duty of the people is to magnify his virtues and to minimize his faults. Nothing so aids a minister as to have an audience of good listeners heartily interested in his work. The singing of a hymn closed the services and then all joined in words of welcome to the new pastor and in expressing hope for a period of renewed activity in the church affairs.

NICHOLS PARK NOTES.

The park commissioners have not deemed it wise to try to maintain anything like regular zoo at Nichols park from the fact that there is not enough money to erect suitable buildings and care properly for the animals and birds. They make an exception of the monkeys and the custodian has fully learned how to care wisely for the little creatures that are such an attraction to the many children who frequent the park.

The elk require almost the same treatment as a cow or a steer and are not a great source of trouble but foxes, wolves, eagles and the like are not desired because they cannot be properly cared for. Coons and other creatures have been tried in the past but they are too much trouble and expense and the provision for them was little less than cruelty. The board has lately decided to add some white rabbits to the list of park attractions and to that end dealers have donated some defective tile which can be placed in the ground in such a manner as to make a safe retreat for the little creatures. Taking the side of a hill a ditch will be dug and at the inner end a large tile placed and leading to it others four inches in diameter so that it will be safe retreat for the little creatures if chased by predatory dogs. In the large tile they will make their homes and will be allowed the freedom of the park and it is hoped will prove a time attraction.

All persons owning dogs are warned that they are willing to donate the park will confer a favor by notifying Secretary Terrance Brennan or any member of the board.

All persons owning dogs are warned to keep them out of the park. It is not deemed unreasonable to demand this as park is in no sense a hunting ground and there is no occasion to take dogs there and any stray animals there may possibly find the atmosphere very unhealthy.

The park is in fine condition and of course it will be much improved when the flowers begin to bloom. The grass in the front yard, that is, on the north side, is well in hand and the lawn looks like a velvet carpet. The golf course is very popular and as soon as the work across the lake is completed it will be one of the best. Many persons from a distance on visiting the park declare it will rank with any in the state for its size and it has few equals.

Underwear to fit the slim man, the stout man or the regular sized man, can be secured of FRANK BYRNS Hat Store.

MRS. RICKS HAS BIRTHDAY.

Mrs. Margaret Ricks is one of the oldest residents of Jacksonville as her ninetieth birthday was recently observed. Mrs. Ricks resides with her daughter, Mrs. Katie Klotz, 799 North East street, and her other daughter, Mrs. Fred Batz, and her son, John W. Ricks, are frequent visitors there. For a year and four months Mrs. Ricks has been confined to her bed, but thru all this long period of invalidism her spirit has not changed and she has the same sunny disposition now as she did before the days of suffering came. Her mind is clear and she maintains an interest in the affairs of her family and the everyday happenings of life. The anniversary was remembered by twenty or thirty friends who sent cards and gifts, and they with others join in the hope that Mrs. Ricks may be spared for still other anniversaries.

COMMISSION PLANS FOR CENTENNIAL CELEBRATION

Dr. Edward Bowe Attended Conference in Springfield Wednesday—County Organizations are Proposed.

If plans of the Illinois centennial commission are carried out there will be a celebration in every county in Illinois as a part of the centennial arrangements. The special committee, of which Dr. Edward Bowe of this city is a member, held a conference at the state house in Springfield Wednesday. Other members of the committee are Royal W. Ennes of Hillsboro; Hugh S. Magill of Springfield; Rev. Father Seidenberg of Chicago; Mrs. Jessie Palmer Weber of Springfield. This committee was appointed some time ago to develop specific plans for the state celebration and the meeting Wednesday was held to receive their report.

It was decided to arrange for celebration in each county so far as possible in co-operation with local officers and civic organizations. It was practically agreed yesterday that a pamphlet will be issued and sent to the officers of each county and they will constitute a committee authorized to issue a call for a public meeting from county centennial associations for the proper observance of the centennial anniversary. It is not expected that active work will commence along this line until fall, and then the committee will suggest that each county organization select various committees to arrange parts of any proposed anniversary programs. While the committee will make general suggestions of ideas which can probably be carried out at the county celebrations, there will naturally be various local ideas and suggestions which can be developed. One of the main ideas of the whole centennial celebration is that it affords a most excellent opportunity to stimulate in all people of the state an interest in the story of Illinois, its history, development, achievements and future. This same general idea will apply with equal force to the proposed county celebrations.

JUDGE SANDERS ADDRESSED

Notable Gathering
Judge William B. Sanders of Cleveland, Ohio, son of Mrs. Cornelia Sanders of this city, was one of the speakers at a recent meeting of lawyers and statesmen in Washington when the national association for constitutional government was organized. Others who addressed the assembly were Senator Henry Cabot Lodge, Massachusetts; David Jayne Hill of New York and Congressman Harry S. Tucker of Virginia.

Judge Sanders graduated from Illinois college in 1873 and from the Albany law school a few years later. For a number of years he has been one of the best known members of the bar in Cleveland and has gained wide distinction as a jurist and a public speaker.

FIREMEN GAVE AID

Fire Chief Hunt and members of the department were called upon to give aid in the cold storage department of John W. Merrigan's establishment yesterday. A gasket was blown off the ammonia storage tank and the fumes were so strong that no one could enter the room to make the necessary repair. The fire department has a Valen head protector and with this helmet on, one of the firemen entered the room and made the adjustment which stopped the leak.

WORK SOON TO BEGIN ON HOME FOR AGED DEAF

E. P. Cleary Treasurer of Fund Receives Request of \$500 Which Brings Total Past \$15,000 Mark.

E. P. Cleary of Sandusky street, who is the treasurer of the funds for the home for aged and infirm deaf, has received a letter with a contribution of \$500 for the fund made by Milton R. Hart and Bertha H. Levi. The sum is given as a memorial to Harry R. Hart, who was a room mate of Mr. Cleary when they were students at Gaudin college in Washington, D. C. This gift brings the total of funds received for this excellent cause to \$15,333.43. The fund was started under the auspices of the state association of the deaf and it was determined some time ago that whenever the \$15,000 mark had been reached that actual work of building would begin. For some time the plan of purchasing a site near Chicago has been under consideration as the mark set was so nearly reached and the expectation is that at an early date some definite steps will be taken toward acquiring the property.

TIMELY RHYMES

Progression is slow, and law is a force that works for better but not for worse; and law is unchanging, let him doubt it who would, eternal, and changeless, and always is good; and all of the efforts of evil shall fall when men are convinced that the right must prevail. For good will still triumph, but sometimes you know we mortals don't see it, so hurried we go. And when we are striving some object to gain, from elbowing each other we never refrain. We push and we pull, we back-bite and strive, and swear that the other shall never arrive. And when there is one we would out from his place, we slap him and smash him and hiss in his face; in fact we do everything we mortals can in our feeble way to kill off the man. Not knowing, poor mortals, who strive for positions, just changing the man doesn't change the conditions.

ATTACKED BY DOGS

Tuesday evening as Mrs. Ada DeSilva was on her way home on east State street after a call in the west part of town she was attacked by three dogs. She had been visiting some friends and was returning when the dogs took after her. She had been suffering from nervousness and was in no condition to stand such an experience. The brutes tore her slippers from her feet and tore her clothing.

The trouble took place on West Morgan street and fortunately a man drove the dogs off and she proceeded on her way she hardly knows how she reached home as she was so used up by the experience.

FURTHER DETAILS ABOUT ACCIDENT TO GEORGE SMIT

Wheel of Auto in Which he was Riding Was Caught in Rut—Mr. Smith's Arm Fractured in Three Places.

Edwin Pyatt, son of Mr. and Mrs. E. D. Pyatt, has gone to Lamar, Colo., to assist George Smith, a salesman for Capps & Sons, who had his arm fractured in an automobile accident last Sunday. The young man will accompany Mr. Smith for the remaining six weeks of his trip and will be of assistance in displaying the sample lines, writing the orders and other work, part of the daily life of a traveling salesman.

Further details of the accident in which Mr. Smith was injured are contained in the following message to the Journal from Lamar, Colo., News:

Lamar, May 10.—At ten o'clock Sunday morning George A. Smith of Jacksonville, Ill., and W. J. Johnston and J. M. Johnston of the Johnston Mercantile company of Lamar, Colo., figured in a serious automobile accident at a point 40 miles south of here. W. J. Johnston, owner of the car was driving at a twenty mile rate when one of the front wheels was crushed in leaving a rut. The car turned completely over, hurling Smith and J. M. Johnston about fifteen feet distant and pinning W. J. Johnston underneath the machine. The latter had several ribs broken and his lower skull fractured. His recovery is still considered doubtful. Smith's right arm was fractured in three places between the wrist and elbow and is still in plaster Paris cast. The suffering greatly he assisted in raising the car, extricating Johnston and then walked a mile for assistance. J. M. Johnston escaped with minor bruises. The trio were making a combined business and pleasure trip to Two Buttes where a son of J. M. Johnston conducts a clothing store.

WILL DISCUSS SPRING MUSIC COURSE

As a result of the convention of the Illinois Music Teachers' association recently held here there is considerable talk of organizing a Jacksonville artist course or musical festival for the spring of 1917. A meeting has been called for this evening at 8 o'clock at the Chamber of Commerce rooms to talk over the idea of having a music week an annual affair in Jacksonville. The success of the recent convention and the splendid program of music afforded created such enthusiasm that musicians and business men are both talking about the proposed plan.
